## COUNTY NEWS.

## UTANA

Mr. Parley Moyle from Newcastle spent a few hours in Utana Friday.

School closes for the Holidays next Friday. Twenty-two scholars now enrolled.

Mr. Taylor and Mr. Roy Williams from Salt Lake City, dined with E. B. Randall last Monday.

We are enjoying California weather, why not spend the Holidays in Utah.

The merriest party of the season was given at the Yale School House last Saturday evening.

## SAHARA

Mrs. Burns has been on the sick list the past week.

Sahara will exchange mail with No. 19.

Mrs. A. E. Phillips is having a fence built around her house.

Word was received from Mrs. Howland that she arrived in Denver, O. K.

Earl Markwith and Bryant Headrick and Mr. Morris came down from the Hills Saturday.

Mr. C. E. Stone Hocker the road master passed through Sahara on the special train Monday.

Foster Howland, Robert Burns and Mr. H. O. Dougherty made a business trip to Lund Sunday.

Mr. Taylor of Ursine, Nev. passed through Sahara stopping at the Baker home over night.

Mr. R. C. Conner went to Ohio to spend Christmas with his mother and daughter.

Mr. Keffee a government man is around inspecting some of the claims, to see if they have lived up to rules and regulations.

Dr. Boghossian, Hall Griffin and H. O. Dougherty went to Lund Monday to have some notary Public work done.

Mr. and Mrs. Arlie Fourman and daughter Alice and Mrs. Johnson of Lund attended the club meeting and dance at Sahara Saturday night.

Paul Adams and Arnold Orton of Parowan held a meeting at the school house Monday night which was well attended by the community.

The Sahara Civic Center Club met in regular session Saturday night, it being the night to elect officers. Officers were elected as follows: Mr. Bryant Headrick, president; Robert Burns, vice-president; James A. Baker, Sec. & Treas. The club decided to have a New Years entertainment Sunday night and watch the old year out and the new year in. Lunch will be served. Everybody invited to join.

## PINTO

Gerry Page was here today.

Glen Tullis was here Thursday for cattle.

W. J. Knell, and Rulon are at Newcastle working.

Levi Gardner passed through here today on his way home from the desert where he has his cattle.

Leires, Jarne and Lewis Eldridge are here from Newcastle for lumber. George Tullis is here also on business.

We have had rain most all week, there has been more than two inches fall.

Education is supposed to make a person refined, yet why is a college course.

## WOOD SEASONED BY OZONE

French Scientist Seems to Have Solved Problem Which Has Long Puzzled Furniture Makers.

Green wood warps, as is well known, and piano-makers are obliged to keep wood for a period of ten years or more before they can convert it into piano frames, and in the building trade timber often remains in the yard for several years before it can be fashioned into doors and window sashes. This is to permit it to dry thoroughly. Until the sap has exhausted itself, the wood is liable to warp. The holding up of large stacks of timber in this way is expensive and exceedingly tiresome when this wood is required urgently. Some have attempted to overcome the difficulty by dehydrating or drying the timber in specially constructed ovens, but without much success. Now a French scientist, M. Otto, has discovered that all kinds of wood can be seasoned rapidly and efficiently by means of ozone.

He has established a factory in Paris and another at Milan, in Italy, where various species of wood are being treated by the new process. In two weeks freshly cut timber is ready for the cabinet maker, and is as dry as if it had been exposed to the air for years. The timber is laid in specially built chambers, through which ozone is made to pass at a uniform heat. Ozone is air highly charged with certain electrical qualities.

## FISH THAT CARRY LANTERNS

Danish Deep-Sea Expedition Brings Back News of Peculiar Specimens of Deep-Sea Denizens.

Fish and "sea devils" which carry lanterns and electric-like lamps with which to find their way in the coal-black depths of the ocean are among the hitherto unknown curiosities of nature brought back by the Danish deep-sea expedition under Dr. Johannes Schmidt, the well-known ocean explorer.

His ship, the steamer Dana, has just returned to Copenhagen with a vast amount of new data of greatest interest to natural scientists and a collection of deep-sea inhabitants never before seen.

The expedition was particularly equipped with instruments and apparatus for deep-sea explorations and records. The greatest depth reached was about four miles. Out of the stygian depths of 16,250 feet, or three miles, where eternal Egyptian darkness reigns, a "sea devil" was brought up which, on a wire-like tentacle projecting from his head, had a small spherical ball electric-like lamp. This ball gives a red light when the fish swims. Other fish out of the ocean darkness had lantern-like bulbs giving light.

One of the discoveries of the expedition is that the Bermuda Islands are the central breeding places of the eel, and it is claimed that European eels cross the ocean from the Bermudas.

## Irrigation in South Africa.

The biggest irrigation works in South Africa and second only in the whole of Africa to the Assuan dam on the Nile, has just been completed. The works, known as the Lake Menz conservation works, are located in the Sunday's River valley near Port Elizabeth. The union government financed the undertaking to the extent of over \$2,500,000 in the interest of land settlement and to further the development of the agricultural resources of the union. The dam impounds 25,700,000 gallons of water and the area submerged is 4,900 acres. Subsidiary works lower down the Sunday's river, constructed by private enterprise at a cost of \$3,000,000 consist of three diversion weirs and canals extending over 400 miles. The scheme aims at intensive cultivation, under a permanent water supply, of an area of over 40,000 acres.

## "Rebuilding" Carthage.

Rising over the ruins of ancient Carthage and the surrounding hills, rich in history, is a modern city of residential villas. Archeologists point out that if this building is permitted to continue, their excavation work will be seriously hampered, as the new proprietors object to invasions of their yards by workmen, no matter what treasures of history may lie underneath. Two French government employees of the department of Tunis lately bought a piece of ground on the site of the old city, and before building their house started to find out what was underneath the surface. After patient digging they discovered a temple of Tanit. Unless the French government stops the sale, real estate agents will shortly put on the market some 240 acres of the site of Carthage at a total sale price of \$200,000.

## "White Slavery."

White-slave traffic was formerly extensive in Europe, America, parts of Asia, Africa and Australia. The suppression of the traffic was agreed upon by an international treaty signed May, 1904, by representatives of France, Germany, Great Britain, Italy, Russia, Sweden, Denmark, Belgium, Holland, Spain, Portugal, Norway and Switzerland. The United States signified its adherence to the treaty in 1908.

## China's Hidden Treasures.

Recently, when the ancient walls of Canton, China, were razed contractors offered to do the work for whatever treasure the walls might contain. Ancient coins and ornaments discovered made the work quite profitable.

## SUMMONS NOTICE.

IN THE DISTRICT COURT OF IRON COUNTY, STATE OF UTAH.

Anita G. Davis, Plaintiff, vs. William D. Davis, Defendant.

## SUMMONS

The State of Utah to the Defendant:

You are hereby summoned to appear within twenty days after service of this summons upon you, if served within the county in which this action is brought; otherwise within thirty days after service, and defend the above entitled action; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the clerk of said court. This action is brought

to recover a judgment dissolving the marriage contract heretofore existing between you and the plaintiff.

J. M. FOSTER,

Attorney for Plaintiff.

First Dec. 22, 1922, last Jan. 19, 1923.

## PARENT-TEACHERS PROGRAM

The following is the program that will be given at the Parents-Teachers' meeting that will be held January 11, 1923:

1—Music, piano selection by Beth Leigh.

2—Reading by Mrs. John U. Webster.

3—General Topic, "Habit Training," (a) Good and Evil Habits, by Mrs. Hyde. "Habit Breaking," by Anna Froyd.

4—Music, community singing.

## What the Christmas Seal Is Accomplishing

It is saving 75,000 lives a year.

It is providing hospital care for 100,000 tuberculosis patients a year.

Nearly 75,000 children are being restored to health in open air schools.

Over 5,000,000 calls a year are being made by 5,000 public health nurses.

Practically all of our 110,000,000 Americans are being educated to better health.

About 7,000,000 school children are learning correct health habits through the Modern Health Crusade.

Help us keep up the good work by supporting this Fourteenth Annual Christmas Seal sale.

SHOW BEGINS AT 7:00 P. M. ADMISSION, ADULTS 15c CHILDREN 5c.

## DO YOU KNOW?

THAT \$65,000,000 per month is being spent by Electric Light and Power Companies in adding new equipment to meet the demands of new customers?

THAT the average daily production of electricity in the United States is estimated to be 131,100,000 k. w. h.?

THAT it is estimated that the aggregate revenue for 1922 for electric power used by household labor saving appliances alone will be \$60,000,000?

THAT 46 years ago, there was only one telephone in the world—the one invented by Alexander Graham Bell?

THAT there are now 14,000,000 telephones in use in this country alone?

THAT approximately 95 per cent of all homes in Utah located within 300 feet of distribution lines are wired

and use electric service?

THAT these Utah homes use 4200 electric ranges; 20,000 electric washers; 60,000 electric irons; 7500 electric cleaners; 1500 electric sewing machines and over 20,000 miscellaneous electrical appliances?

THAT we can learn something from Sweden where one-third of the farm land is being worked by electric power?

THAT only 20 per cent of the factories of the United States are adequately lighted—in other words, 80 per cent are illuminated below normal?

THAT the appliance field has scarcely been scratched, considering that after making full allowance for obsolescence, there are only about 20,000,000 electrical appliances in use in this country?

## Dixie Power Company.

## RUPTURE Expert Here.

SEELEY, FAMOUS IN THIS SPECIALTY, CALLED TO SALT LAKE CITY.

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Utah Hotel, and will remain in Salt Lake City from Monday, December 25, until December 30th, inclusive. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. This result effected during the day—the repair continues of itself throughout the night during sleep while all strain is removed. Being a vast advancement over all former methods—employing instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Warning—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate, without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S. Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley. Home office 117 N. Dearborn St., Chicago.

## YOU TAKE NO CHANCES

If you know anybody who is sick tell them to send 20c for one loaf of Roman Meal Health Bread. If they do not say that it is entirely satisfactory, we will refund the money. Circulars free. Roman Meal Co., Tacoma, Wash. Adv.
